

# RIO ALESSANDRO

Fresh Graduate

## ABOUT ME

I am a fresh graduate of Informatics at University Technology of Yogyakarta and has three months of internship experience as a junior Java mobile developer. Throughout the past three months, I have successfully created a local-based loss reporting application and have the ability to implement Java, REST API, and MYSQL. I have an interest in exploring Flutter and everything about mobile application development. I also have the skills of problem-solving, maintaining integrity with the company, working together in a team, and following work instructions.

## EXPERIENCE

### Loss Report Information System | Internship

Mlati Sector Police – Yogyakarta, Indonesia

May 2022 – July 2022

- As an android developer using the Java programming language.
- Implemented using Java, PHP, Rest API and MYSQL.
- Ensure that all functions run as required and there are no issues.

## PROJECT

### Weather App | Flutter

- As a mobile developer using Flutter.
- Implemented using Bloc state management.
- Ensure that all functions run as required and there are no issues.

### Medical Record Data Security | Web Developer

Stega Medik

- As a web developer using PHP and MYSQL.
- Combining data security with Base64 cryptography and Least Significant Bit steganography.
- Ensure that all functions run as required and there are no issues.

## EDUCATION
